

## Bactoform® SM-194

### Product Information

Version: 7 PI GLOB EN 11-17-2020

#### Range

The Bactoform® range contains food cultures for traditionally and fast fermented meat and prepared food products. The range also spans cultures for flavor and color enhancement and includes mold cultures for surface applications.

#### Description

Bactoform® SM-194 is a culture for production of traditionally fermented sausages with a short production time.

The culture provides a strong and stable color and an aromatic flavor. The yeast adds to the flavor development.

#### Culture composition:

Debaryomyces hansenii

Lactobacillus sakei

Pediococcus pentosaceus

Staphylococcus carnosus

Staphylococcus xylosus

#### Application

##### Usage

The culture is well-suited for all fermented sausages with a short production time. The final pH may be regulated by adjusting the added amount of fermentable sugars.

##### Dosage

25g for 200kg

##### Directions for use

The contents of the pouch is added during grinding, cutting or blending early in the process together with other dry ingredients to ensure a homogeneous distribution. For further advice or other uses, please do not hesitate to contact your Chr. Hansen representative.

#### Physical Properties

Color: Off-white to brownish

Form: Powder, ground

Solubility: Water soluble suspension

#### Packaging

Material No:

621208

Size

50x25 g

Type

Pouch(es) in box

#### Storage and handling

Temperature:

< -17 °C / < 1 °F

Conditions:

Dry

#### Transport condition

Shipment at ambient temperature.

#### Ingredients

Sucrose, Culture, Manganese sulfate

**Bactoform® SM-194**

Product Information

Version: 7 PI GLOB EN 11-17-2020

This product contains manganese sulphate. It is used as a processing aid, as defined in Regulation (EC) 1333/2008 and as such does not require declaration on food products under the regulation on Food Information to Consumers (EC Regulation 1169/2011).

**Shelf life**

For freeze-dried cultures at least 18 months when stored according to recommendations.  
When stored at +5°C/ 41°F the shelf life is max. 6 weeks.

### Analytical methods

References and analytical methods are available on request.

### Food Safety and Legislation

Food cultures from Chr. Hansen comply with the general requirements on food safety laid down in Regulation 178/2002/EC, and have been checked for their safety based on scientifically available knowledge. For specific applications we recommend to consult national legislation.

The food safety of the final food product is the sole responsibility of the food manufacturer and shall be controlled continuously. Chr. Hansen disclaims all liability in relation to food safety of the final food product.

Chr. Hansen recommends that the food manufacturer conducts food safety studies according to local regulations/guidelines concerning the specific use and that such studies are repeated as part of the implementation of new ingredients and technologies or whenever significant process and/or recipe changes are implemented.

If you have questions concerning food safety, please contact your Chr. Hansen representative for assistance.

### Labeling

Suggested labeling "culture", however as legislation may vary, please consult local legislation.

### Trademarks

Product names, names of concepts, logos, brands and other trademarks referred to in this document, whether or not appearing in large print, bold or with the ® or TM symbol are the property of Chr. Hansen A/S or an affiliate thereof or used under license. Trademarks appearing in this document may not be registered in your country, even if they are marked with an ®.

### Dietary information

Kosher: Kosher Pareve Excl. Passover

Halal: Certified

### Technical support

Chr. Hansen's Application and Product Development Laboratories and personnel are available if you need further information.
